CAREER OBJECTIVE

To work in an organization where I can utilize my skills and knowledge as a developer to deliver value-added results while continuously learning and developing my career in alignment with organizational goals.

EDUCATION

Visvesvaraya Technological University   **Aug 2019 – June 2023**
B.E - Computer Science Engineering   *CGPA : 8.05*
Balayesu Junior College   **June 2017 – March 2019**
Intermediate MPC   *CGPA : 8.21*
Balayesu Vidyalaya   **June 2016 – March 2017**
SSC / 10th   *GPA : 9.00*

TECHNICAL SKILLS

Languages: Java, OOP, SQL, HTML, CSS

Developer Tools: Eclipse, MySQL Shell, VS Code, Git, GitHub

Technologies/Frameworks: Spring Boot, JDBC, Hibernate

INTERNSHIP

KODNEST – Java Intern   **Sep 2023 – March 2024**

- Designed and implemented APIs using frameworks like Spring and the Rest Framework for seamless communication and data exchange between applications.
- Managed MySQL, specializing in the creation of custom views, performing CRUD operations to optimize functionality, and enhancing database performance.
- Managed version control using tools like Git, ensuring clear communication and streamlined development processes.

PROJECTS

HOSPITAL MANAGEMENT SYSTEM – :   **2023**

- Developed and implemented a comprehensive hospital management system, leveraging expertise in software engineering and healthcare domain knowledge.
- Analyzed user requirements, designed intuitive interfaces, and integrated robust functionalities such as patient registration, appointment scheduling, billing, and inventory management
- Developed and optimized database schemas to ensure efficient data storage, retrieval, and integrity, resulting in improved system performance and reliability.

SHOP NEST – :   **2024**

- Developed a robust e-commerce shopping application using Java and Spring Boot, implementing core functionalities including user authentication, product browsing, and shopping cart management.
- Used Spring Boot to create APIs that support actions such as account creation, login, ordering, and payment.
- Implemented automated email notifications for order confirmations, shipment tracking, and password resets to improve user engagement and satisfaction.
